At every meeting, the members of the Group Executive Board inform the Board of Directors of current business developments and major business transactions of the Group or Group companies. The more extensive quarterly report additionally contains the expectations of the operational management on the development of results until the end of the financial year, information on the development of the workforce and liquidity and on the investments made, the composition of the shareholders as well as market expectations in regard to the business development.

Furthermore, the Chairman of the Board of Directors and the Chief Executive Officer are in contact at regular intervals with respect to all major issues of corporate policy. Each member of the Board of Directors may individually demand information with respect to all matters of the Group or Group companies.

Based on the → **Organisational Regulations of the Board of Directors** and the → **Organisational Regulations of the Audit Committee (AC)** of the Board of Directors, the Audit Committee has implemented a comprehensive system for monitoring and controlling the risks associated with the business activities.
