3.7 INFORMATION AND CONTROL INSTRUMENTS VIS-À-VIS THE GROUP EXECUTIVE BOARD

At every meeting of the Board of Directors, individual members of the Group Executive Board inform the Board of Directors of current business developments and major business transactions of the Group or Group companies. Between meetings, the Board of Directors is comprehensively informed in writing about current business developments and the company's financial situation on a monthly basis. Essentially, this report contains key statements on the Group and market development, information and key figures on the Group sales and profit development (in January, April, July and October, it contains statements only on sales development and not on profit development), statements on sales development in the individual product lines and countries or regions as well as an analysis on the share price development. The more extensive quarterly report additionally contains the expectations of the operational management on the development of results until the end of the financial year, infor-

mation on the development of the workforce and liquidity and on the investments made, the composition of the shareholders as well as market expectations in regard to the business development.

Furthermore, the Chairman of the Board of Directors and the Chief Executive Officer are in contact at regular intervals with respect to all major issues of corporate policy. Each member of the Board of Directors may individually demand information with respect to all matters of the Group or Group companies.

Based on the → **Organisational Regulations of the Board of Directors of Geberit AG** and the → **Organisational Regulations for the Audit Committee** of the Board of Directors, the Audit Committee has implemented a comprehensive system for monitoring and controlling the risks associated with the business activities. In addition, responsible persons are designated in the company for significant individual risks. These responsible parties decide on specific actions for risk mitigation and monitor their implementation. Every other year, the Internal Audit department issues a risk report for the attention of the Board of Directors.
